The work originally published under the title of THE NEW AMERICAN CYCLOP ADDA was completed a 1983, since which time the wide circulation which has attained in all parts of the United States, and he signal developments which have taken piace is very branch of science, literature and art have in need the editors and publishers to submit it to a vacat and thorough revision, and to issue a new edition entitled THE AMERICAN CYCLOP ADDA.

Within the last ten years the progress of discovery in every department of knowledge has made at work of reference of include, affairs has kept pace work of reference of include, affairs has kept pace rifth the discoveries of victuce, and their fruitful pipilention to the industrial and useful arts and the unvenience and refinement of social life. Great arra and consequent revolutions have occurred, inviving national changes of peculiar moment. The vil war of our own country, which was at its eight when the last volume of the old work appared, has happly been ended, and a new course feommercial and industrial activity has been consequent excepts. gested by longer experience and enlarged knowledge.

The illustrations which are introduced for the first time in the present edition have been added not for the aske of pictorial effect, but to give greater luckity and force to the explanations in the text. They embrace all branches of science and of natural history, and depict the most famous and remarkable features of scenery, architecture and art, as well as the various processes of mechanics and manufactures. Although intended for instruction rather than embellishment, no pains have been spared to insure their artislic excellence; the cost of their execution is chormons, and it is believed they will find a welcome reception asks admirable feature of the Cyclopecita, and worthy of its high character.

This work is sold to subscribers only, payable on delivery of each volume. It will be computed in sixteen large octavo volumes, each containing about wood Engravings and with several thousand wood Engravings and with several thousand 200 dozen CANNED CURN, Portland. 500 dozen PEACHES. 2,000 dozen canned goods; we name in part: BERRIES, PINE APPLE, QUINCE, EGO

have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multilude of new men, whose ames are in every one; smouth, and of whose lives every one is curfous to know the particulars. Great battles have been fought and importantisheges maintained, of which the details are as yet preserved only in the made, but which ought now to publication less in permanent and authentic history. In preparing the present edition for the press, it has accordingly been the sim of the editors to bring down the information to the latest possible dates, and to Ramish an accurate account of the most recent discoveries in selence, of every fresh production in literature, and of the newest inventions in the practical arts, as well as to give a succinct and original record of the progress of political and historical events.

The work has been begun after a long and careful corical events.

The work has been begun after a long and careful manney labor, and with the most ample resources for carrying it on to a successful terminaion. So carring a stereotype plates have been and on new type forming in fact a new Cyclopsolia, with the samplan and compans as its predecenor, but with a fagretier pecuniary expenditure, and with such in provements in its composition as have been suggested by longer experience and enlarged knowledges.
